The Premises:

An utterly squalid flat over an estate agent's office, with a sinister man hovering in the kitchen next to the bedroom

The Lady:

Not the girl in the photographs. I would not have chosen her if the photographs had been of her - let's leave it at that. All they had in common was that they were women, and oriental.

The Story:

Always depressing to hear the words "You want fuck me now?" two seconds after you have handed over the money; apparently the only English she spoke (or at least, the only English she uttered to me). This was completely mechanical and unerotic. She watched a Chinese gangster movie on her iPhone while giving me a perfunctory massage, and interrupted her fucking to turn up the volume - yes really. When it was all over she turned on an app on her phone - love that - so that we could converse. She asked if I would see her again. I said diplomatically that I had to go back to Manchester. She said she would go to Manchester. Weird. Got out as fast as I could, watched by the sinister man in the kitchen.
