### The Premises:

### The Lady:

When I first saw Noel online I knew that I had to book her to see if she was as sexy as she appeared on the website. After Meeting her I wasn't far off, her slim physique really did it for me and I could tell that she really took care of her appearance. She is european of some sort and has brown hair/eyes. Honestly I think she was smoking hot and despite the price tag I'm quite happy that i booked.

### The Story:

I was quite nervous before meeting Noel because I didn't think she'd live up to her pictures as a lot of them seemed airbrushed or something. She met me at a hotel right on time after I had been worrying that she'd either be late, or not turn up at all. At first I was a bit quiet but she was quite talkative so it make me feel a bit more comfortable around her. After a couple of glasses of wine and a chat we got in to it and to be perfectly honest she's a lot more sexy in real life than I thought she was going to be. She has a cute little ass to match her slim body and is great at foreplay. Although I don't have many bad things to say, I would say that she seemed quite vain and you could tell that she's had a lot of attention throughout her life. It's a shame really because she seemed quite nice but she just wasn't down to earth enough for the GFE i was expecting. all in all i would give her a 8/10, super sexy, great in bed, I just didn't really click with her.
