The Story:

I have been visiting Marnie on a regular basis over the past 2 years, she is always polite and caring and she Never rushes you. We started with here giving me a very strong Blow job, she always take pride in her technique. She is VERY experienced and has the knowledge and the Body to please and Excite you. On when the Rubber helmet and she climbed on board and road me like a champion, after a while we changed to Mish and I started to build up speed with Marnie encouraging me all the way, After slowing down and resting for a short while she said we should try me on top with her legs closed after I had entered her, It was a new one for me but what the heck try anything once, Well the feelings of pressure and stiffnesss soon improved and I was back up to full steam again. We swapped around a few times but ended up with her on top again. after a final Kiss and cuddle we shared a shower and then went and had a cup of tea. She is definately worth a visit, She also has all the Wips, Mask's, and Tackle for those who like a good bit of wipping... I shall return..
