The Premises:

One step up from a squat in north london. Nasty place, dirty linen cracked windows etc. Poor directions given (seems likely this was a friends house as opposed to the girls own.

The Lady:

Skinny with small (quite pert) tits, nice arse but body covered in bruises, spots etc. Not very well presented. Personal hygiene comparable to that of an ex-rough sleeper who hasn't quite adjusted to civilization and continues to wash out of a mug.

The Story:

Went for the fisting, which I got. Quite impressive to watch as you gradually work your hand in. Nice sucking sound as you pull out. but I had hoped for a better all round experience. Sex was dissapointing and I was put off anal by the fact her arse reeked of shit. The place made me feel unsafe and the girl seemed used up. I read the punternet report written by a bloke who invited her round to his house for champers. I wouldn't have her in my home and there is no way I would waste expensive alchohol! I'd need to be desperate to go again. Might try barbie or ruby next time i fancy the unusual. e-mail me with any details of these services. I don't want to make the same mistake twice
