The Premises:

Helens directions easy to find. The house was a clean secluded end town house out of town. It was quiet and safe, good parking.

The Lady:

Helen opened the door clad in a thin tight top her breasts trying to burst through, a very short black skirt and black self supporting stockings. Her hair was long dark blond.

The Story:

Helen greeted me with a warm sexy kiss and as I told her I had a semi hard on all the way to her house, her hand clasped my cock and gently wanked me off through my trousers saying she would soon get me stiff.

I stroked her beautiful bra less round tits and slid my hands to her fantastic round arse and as she did not have anything on under the skirt my fingers found her arse hole.

As I fingered her, she humped on them a little.

I turned on my video camera and with Helens consent, took some erotic horny shots of her feeling and licking tits and fingering her fantastic shaven pussy. Her fingers dipped into both holes and she licked off her love juices from them.

Ask her to remove her stockings, she has the most delectable shapely legs and exquisite round arse you can imagine and to see her naked with only high heels on will make your balls full to bursting.

With Helen still on the stairs, tits out and skirt up to her middle I had to dive under and lick a delightful sweet shaven cunt and finger her arse again which she seemed to like.

Upstairs Helens hand was inside my trousers wanking me off again whilst I undressed and as soon as my dick was free she licked the tip and balls. Her tongue travelled up and down the shaft rubbing the tip of my cock all round her mouth and over her face. She then sucked me off and taking it deep into her mouth. Her teeth grazed the tip as she licked the juices dripping from the tip. Rolling her tongue round and round my knob end pushing the tip of her tongue into the slit in the end of my dick making me want to cum.

I licked her sweet cunt again and then turned on the camera whilst Helen did some very horny masterbating, opening those pussey lips and feeling and licking those supple tits for the camera. My cock was now dripping again with juice, I gathered it up on a finger and offered it to Helen who greedily licked it all off commenting that she loves the taste of cum in her mouth. In return she pushed her fingers deep into her love tunnel, pulled them out and gave them to me to lick off her juices. In return I pushed two fingers deep into her arse, pivoting them round and round and pushing them in and out. Helen murmured approval and began to bounce up and down on them, but fucking them, the horny look of pleasure on her face was wonderful to see. She really does love to be fucked in the arse and what an arse.

I then pushed a finger of each hand one deep inside her arse the other in her hot wet cunt and fingered her hard. Helen soon said she was going to cum and she did with a couple of expletives.

As I had booked only half an hour it was time to fuck Helen, but by rubbing my cock up and down her clit and between the lips of her pussy I felt the warning feeling that I was about to cum. As Helen had told me before that she loves the taste of cum she quickly placed my cock deep into her mouth again where she sucked and pulled on it until I spurted. I wanted to see my cum hit her tongue. At the last minute I told Helen I was cumming, She replied "I can fucking feel it" She then pointed my dick at her tongue and I splattered it with cum. She wanked every drop out of it, rolled her tongue round and round the tip and ate it all licking the shaft clean. Helen gathered up on her fingers some that had landed on her face and chin, licking her fingers she said "I just love a fucking blow job", well so do I.

On previous occasions I have cum on Helen's hands where she licked it off and on another I shot cum onto her lover tummy. She then scooped it up on fingers and dribbled it onto her tongue then ate it. Does she love cum.

Helen is the most sexy, extremely good looking lady I have ever met. She has a wonderful smile and although as she said she is 40 she still has a superb voluptuous firm body with the most kissable skin you can wish for. She certainly knows how to please. Helen is a very special lady and must be treated with consideration.
