The Premises:

This is the same address used by Caroline of Maidenhead (www.caroline-escort.com) and is a first floor flat in a modern residential block in a quite cul-de-sac. There is ample parking in the residents bays but I chose to park in a near-by road and walk. I felt quite safe and in fact, saw no one. There are no twitching curtains. The flat is via a communal door with an entry system and is comprised of a very tidy lounge, bedrooms and clean bath/shower with fresh towels provided. The main lounge is littered with Forum reading material just in case you need to get in the mood. However on seeing sasha at the front door, I did not need any further stimulus.

The Lady:

Sasha is a petit lady who stands at about 5'07" in her stockings. She was wearing a summery dress, black high heels and lacy stockings/hold-ups with matching black thong. She greeted me with a infectious smile and hearty welcome. Although I had only spoken to her on the phone several times, (and of course knew Caroline), she treated me like a long lost lover. She is very touchy and soon stroked my bear arms. She has shoulder length blonde hair with high-lights and bottle green eyes, The photos on the web are accurate, although they disguise her the beauty of her eyes. She has the softest most kissable lips which she has no hesitation in planting on every bit of your body. Her breasts are 34B I would guesstimate, and the rest of her is equally in proportion. Her nipples are small, round and brown with the most electrifying hard nipples (when she rubs these against you, you really can feel them poke into your back). Her pussy is neatly trimmed and shaved at the sides leaving a carefully formed landing strip. Her tits are round, soft and natural. sasha has an infectious laugh and a plain speaking sense of humour. Her manner is relaxed and fun which she conveys when in conversation.

The Story:

I got to know about Sasha from Caroline, who I had seen previously. I knew that she had a naughty reputation and wasn't disappointed. She greeted me at the door and lead me through into the lounge. From the moment I entered, she flirted with me (not that I needed any encouragement). It was a very hot day and I was getting hotter under the collar as she stroked and caressed me. I was offered a glass to drink and opted for cold orange, to try and cool me down. After a few moments she lead me by the hand into the bedroom. This was a double bed with clean towels nearby, soft music playing and a large mirror hanging on the wall. I did not get the significance of this till later.

She slowly undressed me and began licking and teasing my nipples. "Are you sensitive here?" she asked.. 'No' but I am now! This lead to her slowly removing my shirt and shorts(it was a hot day) and eventually releasing Mr Woody from his confinement. His erection just got 2 inches bigger. There followed a bout of deep throated OWO. I was invited to lay on the bed on my front and she expertly massaged my back. She used to work in a saloon and so knows her way around an anatomy. This had me purring. She was gentle where she needed to be (by my balls and bottom) and hard on the muscles of my shoulders, finishing with gentle kisses along my spine. Her body to body is just to die for. Just extacy as Mr Woody was digging a ditch into the mattress! She turned me over and continued with this treatment. I will not go into too much detail, suffice to say that she encourages probing with your fingers and tongue (a personal favourite). Even before touching her, she was dripping wet. Eventually after much teasing, she ordered me to "take me from behind" and I duely submitted once covered up. This is where the mirror came in. It is just correctly placed to wonder 'who that lucky bloke is having sex with that porn-star?' Very horny. She encourages different positions and moans vocally. She juices covered me as I climaxed and if she was faking it, then she deserves an oscar. There is no holding back. She cleaned me up afterwards (something that other women refuse to do) and the way she does this is enough to stand me up again. I was offered and accepted a shower and provided with a clean towel. She took me to the bathroom still only dressed in her holdups, whist she showed me the operation of the taps. Then having dressed I joined her in the kitchen for another cooling glass. It was only at this point that she realised we needed to settle up the business end. (It seems that she was just so eager to get me into bed) This has nothing to do with my looks(!) but the fact that she is a really horny lady who just enjoys sex. I have no hesitation in recommending her although I fear this may limit my time with her as she only works two/three days a week. She does a duo with Caroline and now that I have experienced both individually, I am looking forward to seeing them as a team. I was asked "can you handle two naughty blonds?" Time will tell.
