### The Story:

Having seen Jan quite a few times at her home, I decided to try an outcall as I, was working in the area.

Booked in to the travel lodge and waited for Jan to arrive which she did at the agreed time. I met her in the car park it is much nicer for her not having to go through reception alone.

Once in the room she took off her long coat to reveal a very short skirt and see through top. After lot of kissing and cuddling, we undressed each other and I, could not resist sucking her large nipples.

Then on to OWO with Jan kneeling in front of me I, being the perfect gentleman returned the compliment and gave a good tongueing which I, know she always enjoys. I, then decided to take in the mish position for a good session after this we relaxed with more kisses and playing with each other.

Into the 69 position and the into doggy what a lovely view of Jan backing onto my rampant cock she certainly enjoys being ridden this way by this time I, was ready for a rest.

After having a drink we ran a bath for us both what treat with such a lovely lady, Jan can talk on lots of subjects when she is not sucking my cock, lots of bubbles in the bath and finished off with me spunking into Jans mouth and over her tits.

By this time I, was well spent but what a great time I had just enough time to make a coffee and a last kiss and cuddle before Jan had to go.

I, really must arrange another outcall when I am in the area overnight otherwise I, will carry on visiting Jan at her place.
