The Story:

My first time with Honey. Was a bit nervous bordering on the frantic, but Honey soon cured that with her friendly and relaxing way. She gave me a cup of tea and we sat and got to know each other a little. trying to prise out of me my preferences.

Just at the right time she took me into the bedroom and wow thats when you first appreciate her, lovely deep kissing while she half undresses me, me feeling her great body for the first time. While kissing deep and he was working on me, christ guys you won't wait too long to come with Honey I was in doggie style straight away.

Honey likes having her great breasts sucked hard and she can't get enough of you tonguing her pussy. I even used some of her "toys".

She gave me a fantastic blow job and after more tasting pussy I was back in the doggie position. I also gave Honey a nice massage later, she seemed to like that.

In a few word i would say it's like talking to your sister one minute and the nextshe's straight down on you. Fantastic. 5 star recommendation for you who like large gorgeous ladies.
