The Premises:

Nice flat, a few steps above entrance level in a block just off Baker Street and close to the tube station. Only saw the bedroom but it was clean with candles and a double bed with bedspread over bare but good mattress. Safe and discreet but her flatmate isn't the quietest around.

The Lady:

5'8" tall, not slim, described as size 12-14 but nicely toned. Looks exactly like the agency photos with shoulder length dark blonde hair and firm but not large breasts, Pierced belly button and shaven below.

The Story:

Comes across as a keen and capable sexual partner, started with lots of kissing with a good amount of tongue, the feeling as she stood above me with her hair draped over me as we kissed was fantastic. OWO with strong suction, then she masturbated to orgasm as I gave her oral which got me really hard, but unfortunately my flesh failed me as the condom went on so we didn't get as far as full sex. Once I'd convinced her that it wasn't her fault (it isn't the first time and it won't be the last) we spent the rest of the session just kissing and cuddling, with another oral/masturbated orgasm for her (if faked then her muscle control is awesome). Ended with a chat, her English is good and she seems a really nice girl.

I will visit again but not until I've had a 'success' or two elsewhere. This was my fifth punt, she made me feel good and is probably the girl who has made the most impact upon me.

I was very impressed by the agency, the photos were accurate, native english speaker on the phone, wanted to know how I wanted Anastasia to dress and asked me to call afterwards to let them know how it went.
