The Premises:

It was an outcall to my place. I arranged to pick her up in town and drove her to mine whilst we chatted and got to know each other.

The Lady:

Kym is a lovely lady, slim with long reddish hair, large breasts and a lovely cheeky smile. She is about 5ft 5 tall. Her website pictures as usual don't do her justice.

The Story:

As one of my favourites is for a lady to swallow I emailed her to confirm this was OK as I had never met her before. She replied very quickly and also confirmed Anal is also on offer for an extra ?35.00.

It was a lovely natural slow session which started with some french kissing and cuddling, I wish more ladies kissed, it always seems strange to me that they are prepared to offer OWO but not let you kiss them. We moved on to me performing oral until she came, I felt the quivering so I am sure it was genuine. She then at my request sucked my cock for about 10 mins so he was good and hard and ready for more frantic action. She went on top first, even though she is not that keen, followed by some missionary with intermittent kissing, cuddling and fondling. She then gave me a bit more oral to get him hard and then proceeded to watch me wank for a while until I suggested I was ready to fill her mouth. she duly obliged swallowing most of my quite large load. We then cleaned up kissed and cuddled for a few more minutes and then realised we had overshot the time by about 15 mins. No problem. we dressed, kissed and I gave her a lift back to the town centre. I would highly recommend her and will almost certainly see her again and maybe this time try a bit of Anal. Thanks Kym and will see you again soon.
