The Story:

Stuck at the airport so arranged some entertainment. Sasha looked great on the site and I didnt want a "hard body babe" rather a real woman. First impressions confirmed I had been lucky with my choice and she appeared to be almost exactly what I wanted when I met her. She was immaculately dressed on arrival and once down t her undies looked great. She performed as advertised and provide enthusiastic and expert with both excellent oral and hand work. Sex was fast and furious and she can be hard to keep up with but trying is great fun. She is obviously well educated and worldly knowledgeable. Perhaps if I am fortunate enough to see her again I will get the chance to do a little more chatting, but on this occassion it was shagging and not chatting that was required. Delightful lady and a lovely hour or so.
