The Premises:

A "Travellodge" style hotel the name of which I have forgotten. Main feature was its proximity to the M6 - handy for both of us! Clean, safe, on a busy main road but not the sort of place you would stop unless you were stopping. Decoration OK - didn't pay too much attention as that's not why we were there!

The Lady:

Suzie is of average sort of height, but a far from average shape. Quite slender (except in a couple of important areas) she feels like she makes good use of a gym membership. Attractive face framed by medium-length hair. Having seen her I would guess at an age of around the mid thirties, though if I was blindfolded and working by touch alone I would take a good ten years off that guess!

The Story:

Arriving slightly late from the almost inevitable motorway delays the only hitch with this meeting was the fact the lift was broken. I hope I didn't attract too much attention sprinting to get to the top floor. I only had a few seconds to get my breath back before we were getting down to some getting to know each other that saw most clothes off and most body areas investigated in the first two minutes. Things settled down after that initial rush into some fantastic kissing, OWO (both ways - Suzie is shaven and it didn't take me long to find where she has her discreet piercings) then sex in cowgirl and missionary at a lovely relaxed pace, finishing off over her large, firm boobs. Sadly the late start meant I had to dash off quite quickly, which was a shame as we were getting on really well. We chatted while we dressed, and I gave her a quick peck on the cheek before leaving. Then I thought better of it, put my hands on her shoulders and spun her round gently, then dropped my hands and gave her a prolonged farewell fondle as she leaned back against me. I think I feel a return visit coming on!
