### The Premises:

Small bedroom in basement flat  
Good area, clean and safe

### The Lady:

Attractive, young Russian girl. Why do they enhance their breasts? I bet she was beautiful before the operation. Those so-called glamour girl models have a lot to answer for. What is attractive about the feeling a sack of silicon.

### The Story:

For many Stasy may well be worth seeing. But for me there were several turnoffs. She is a bit chunkier than the photos suggest, and her legs are bigger, although she is a pretty girl. I have been punting for more than two decades and sadly the scene today, even with computers, is tricky. You don't really get a feel of the girl from these glamourized photos. Stasy was adept in the oral department but after going down-below I was given the order "no fingers". I knew that from this point things would be going down hill. Chemistry just was not there and it was a bit mechanical - although you will see glowing reviews on the website which are certainly from luckier fellows. You may well be lucky but I walked out after 25 minutes. It was an expensive experience.
