The Premises:

Not a great looking massage parlour on a reasonably busy street. The room we used was neat and tidy, but fairly tatty and the bed was a very creaky old thing.

The Lady:

Petite girl probably in her late twenties, very nice figure, with an Ceasrian scar, but it was easy to overlook.

The Story:

There was something odd about Gemma. She said she had only been working there for 3 weeks on a part time basis and did seem pretty nervous, for a change the girl was more nervous than me, but she also seemed a little unsteady on her feet as if she might have been drunk or high which unnerved me a little. However, she was very enthusiastic, not afraid to say what she liked and, when she got it, she really went for it. She came pretty hard doing 69 and then asked if I would mind if she played with herself while I did her from behind doggy style. Well, I was hardly going to refuse was I? And she came enthusiastically again before I shot my load. I always enjoy the sex more when the girl is having a good time, so from that respect this was great, but I still have that nagging doubt in my mind about her behaviour and whether it was drug related. If she can still turn the tricks without help from some stimulant, and still be as orgasmic, she would be a good punt.
