The Premises:

Clean place, fairly easy to find, although I was on the phone getting directions as I drove in. It seemed safe, in private flats, private car parking and not that overlooked

The Lady:

She is exactly as she looks on her website - perhaps slightly better looking. She is very skinny with small breasts (they must only be a C cup because her chest is so skinny) and also very tall.

I do wonder if she is truly Finnish as advertised ... maybe from a Baltic state perhaps ? She came across as being far more Russian than Scndinavian to me.

The Story:

I wanted her to submit a little - ie: let me do everyhting ... from undressing her, massaging her to making her cum - all before I let her on me. She was a little taken back by this, but tried to play along.

Unfortunately, once this had been going on for a few minutes, she couldn't help herself from going into her 'routine'. And this is where the turn off started.

She gives a good blow job and she fucks well, but I couldn't help but feel that I was eating off a set menu rather than 'a la carte' and getting a personnal (rather than generic) service.

She is too skinny for me ... her hips are very boney and not that comfortable if she happen to be in a position for them to bang into you !!

The biggest turn off of all is that the door was opened by a guy who must have been in his 50s. This gave a slightly seedy impression about the whole set up ... was she truly doing this for herself ??

In my opinion, if you just want a good fuck - she's your girl, but if you want anything a little more personnal, there are many other girls out there who are either cheaper, or more adaptable !
