The Premises:

The Georgian is one of the most luxurious parlours in the Greater Manchester area situated in the town centre just off the main drag. The area is respectable although there is fair bit of traffic which those wishing to preserve their anonymity may find uncomfortable. Prices vary according to the room used ranging from ?60 for the hour for the most basic consisting of a double bed and en suite to ?80 for one with a huge jacuzzi. I had the gold room which had a jacuzzi big enough for two.

The Lady:

Cindy is extremely pretty and very petite with dark blond hair. She is untrimmed between the legs.

The Story:

I made my second visit to the Georgian within 24 hours with my appetite whetted by my mind shattering experience with Madison the previous day. There were 3 girls available on my arrival of which Cindy was by far the most attractive. Selection was therefore a simple process though because of her attractiveness I had no great expectations of a good level of service. I was wrong... Cindy turned out to be a lot of fun and appeared to really enjoy herself without me having to do a lot of work. While the jacuzzi was running, she asked to give me a massage. After a short while of rubbing my back she proceeded to lick me along the back of my neck and around the ears.

On turning me over, she made a bee line for my nipples and licked them enthusiastically while playing with me between the legs. We climbed into the jacuzzi and she soaped me all over paying particular attention to the area between the legs. She got me to lie in her arms with my back towards her while she caressed my front and then she asked to change positions to allow her to lie in my arms. We then dried, got onto the bed and she dived between my legs and took my erection in her mouth. Eventually pausing for breath she told that she doesn't normally perform oral uncovered but couldn't resist mine as "it looked so clean and tasty.

" Wow!! It might or might not have been the truth but it certainly made me feel good about myself. She then told me using the coarsest of language precisely what she wanted me to do to her. I found

that to be a high turn on as firstly I didn't expect her to be capable to any vulgarity and secondly I have never known waif like ladies to call the shots. At her instigation I performed oral on her and she tasted delightful - very clean with the slightest hint of musk - during which she gave me a lot of feedback in the form of encouragement and compliments. After a little while she shouted that she was about to come, pushed my head away and fingered herself to a climax.

Though I briefly felt surplus to requirements, it was still quite an erotic experience for me to be the observer. When she got her breath back, she asked for sex and told me the positions she wanted it in. We banged away vigorously while she gave me a running commentary using the most basic of language. Every now and then she would tilt her hips to change the sensations for me and it was heavenly. Eventually she said that time was running out and asked how I would like to finish. I elected for a hand job to which she added that she wanted me to ejaculate over her breasts - well not using those words exactly.

As she was rubbing me, her nipple was gently caressing the tip of my erection and as I orgasmed she lowered her breast so that it was covered by my semen. It was good to see her shower immediately afterwards to ensure that she was clean for the next customer. We said our goodbyes and I departed with a huge grin on my face patently satisfied by the experience.
