The Premises:

An apartment in a big modern block quite near former children's hospital. Late enough to park on single yellow line nearly outside but might be tricky other times. Another report suggests the set up used to work in Selly Oak but I'd never come across them before so thanks to the poster.

The Lady:

Three girls working. One I recognised from other places, one with unusual cultural background that interested me but she seemed to assume I would pick her when I wanted to see all the girls first and the third was Tazmin. She looks like a typical recently-left English public schoolgirl type which I found intriguing.

The Story:

Enjoyed my time with Tamzin. She looks young but has been working for some months and has an easy comfortableness in her manner. Had pleasant cuddle which started with a kiss and a good oral became 69.

The sex was good too with an intrigue about how her facial expressions responded to her feelings. Tazmin seems to work quite a lot of days but I found the initial interest I had in her was not diminished by everything becoming too much of a routine for her.
