The Premises:

As described before, semi-detached house in quiet street in Borehamwood, safe, modern, clearly her own home

The Lady:

Lady certainly not in her 40s, probably late 50s looking at the skin and facial features. Good body but shows signs of age. I could be wrong but breasts seem to be enhanced.

The Story:

I waited a while before writing this report as something bugs me. I re-read the old reports about her and I wonder whether or not I saw the real Jazz or someone replacing her ?

The lady most definitely did not look in her 40s and the description in earlier reports about her do not fit the lady I met with.

Anyhow, she introduced herself and we sat a few minutes downstairs, offered me a drink and I choose wine. She told me a little about herself and asked me what I wanted / liked. I told her I like tie and tease (as it was described in an earlier report) which was later totally ignored. We settled the money matters and moved upstairs. She undressed me and asked me to lie on the bed for some massage. She indeed massaged my legs and one or two strokes over de back, sucked my toes and asked me to turn around so "the real fun can begin". She gave OWO with a nice trick with warm water in her mouth (no ice cubes as described in other reports) and than suggested we use some poppers so she will feel that "I am the only person she really wants". It works only very short term and did not do much for me. My man was standing straight up at which moment she got up and looked for the box with condoms in the cupboard. Than se asked me to move to the chair for some action there but of course, by the time we were all settled and well my man had gone down again. Back onto the bed for some more oral and hand action but by that time I was not excited anymore and it was hard to get it up. In the end she gave me a handrelief and it was all over in abt. 35 minutes.

Now, it is well possible that I was tired and not concentrating enough. But I was annoyed and felt cheated as a/ the lady was certainly not as decribed, b/ she did not take note and attention of what I had asked, c/ I felt it was all very mechanical according to her routine and that she tried to do it all to quick and without any feeling (otherwise, why did she need the poppers ?) and d/ I paid ? 150.- for

an hour's service and got 35 minutes after which she went for a shower and basically the session was over and done with.

I think for this money one can expect a better service and therefore I will not be back. Maybe she had a bad day or her mind was somewhere else, who knows.
