### The Premises:

My place.

### The Lady:

Medium height, dumpy with large breasts. However, her pictures on the website make her look stunning, very clever camera work.

### The Story:

An extremely disappointing punt - the worst I have ever had.

I wont go into great detail but suffice to say she doesn't kiss or do OWO. During sex her coil was becoming uncomfortable and spent a couple of minutes digging around inside herself sorting it out. It kind of put me off my stride so ended with a hand job - I wasn't allowed to cum on her and she made sure her hand never went near the end at that special moment !

Didn't get the full hour - didn't really want it.
