The Premises:

Character terraced cottage, out of the way but easy to find with good clear instructions from Mistress' PA, Ceri. Perfectly clean and well presented inside with artefacts and books about Goddesses and Worship. Much better than a dungeon, the Temple is a place of erotic, controlled temptation.

The Lady:

Only one word - Divine. Fantastic body, stunning legs, beautiful bossom and a real peach of a bottom.

The Story:

This is my first visit to Mistress Kali and what an experience! i have been looking to expand my erotic horizons and found Mistress' reviews on this site and took a look at her own wevbsite. i liked the idea that She did not have a traditional dungeon and after some email conversations my desires seemed to match Hers - the Auntie scenario with body worship.

As a first time sub (other than an experience with a part time homme, which was fun but not 'real') i was somewhat nervous and filled with a little trepidation as to what might happen. It was made very clear that i was there to serve and not be pleased (although clearly i hoped to derive pleasure from serving). Despite this i arrived (early - forgot to check the time as i arrived!) and later duly punished for this early arrival.

The experience began as soon as i walked in the door. Mistress' presence is in itself very dominating, She is tall and wore a velvet gown with stockings and a velvet dress with a bossom wonderfully lifted up with a nice bra. Immediately She appeared in control and made it crystal clear that i was in Her domain and under her control, i was Her boy and to be used as She felt useful.

What i did not expect was the utter eroticism behind our encounter. i lingered on her every word, her whispers in my ear turned me on so much that i knew i was there to please Her and more importantly wanted to within just a few minutes - whatever she said i knew i would do, almost powerless to think for myself - i was to be her toy.

A safe word was provided, which i never used despite some pain - i pretty much forgot i was allowed to use it after all i was under Her spell.

After some hard spanking (for being late) and some more spanking just for being there, Mistress decided i should go through the candle ritual. Kneeling on all fours on a sheepskin rug in front a mirror i could see the Divine Mistress drip red hot wax over my bare bottom, some of which trickled down my crack. After some time, and as the pain increased which i did not expect, She asked me to make a wish and blow the candle out. i was then asked to tell my Mistress what i wished for and she later allowed for my wish to come true...

Her wit and sarcasitc humour is spot on, it adds to the mystism of what she might do next and ensures that at no time you feel in control.

After the wax She blindfolded me, which added to the sensory experience, added nipple clamps and chained me by the wrists and neck. I was led through to another room and the session really took hold. She linked the chains to a hook in the ceiling and stood above me and guided my hands, allowing me to caress her breasts, they really are amazing, soft, supple and with perfect sensitive nipples. She then decided i should have a small dildo shaped ice cube inserted in me and called me a slut, spanking me again.

She then stood above me again and allowed me to kiss her bottom, then to lick Her panty covered pussy. i so wanted to rip the panties off and taste her, and i wondered if i ever would - i had no say in the situation, She may well have ended the session there and i would have had to leave, so close but yet so far....

However, my wish was to come true. i was allowed to ease her panties aside and lick her velvet pussy, such an amazing experience after all the power she had demonstrated i really did not think i would be allowed to taste her.

She turned round and let me lick her bottom, i was so turned on the clamps really tightened on my pulsing nipples. She played with my cock with her shoes.

The passion was really turning up the heat and being blindfolded added to the real sensory experience, i was hard as ever and groaning between her thighs, trying to get more of Her, trying to please her and be able to lick her wet pussy to orgasm.

But she pulled away, 2 or 3 times, not allowing me to fulfill what i wanted, despite my begging.

i was unhooked from the chains and told to lay on the floor where Mistress decided straddle my face and offer me Her pussy again - thank goodness, i had to have more and had to taste her again. She pulled a hand to her breast and rubbed her crotch into my face.

Yet She stopped again. She moved over to the sofa and still blindfolded told me to find her bottom. She was straddling the sofa arm and had her bottom raised up (i think so anyway, that what it appeared to be in my mind) and offered me a succulent lick of her bottom. i tongued her bottom and stroked her legs and cheeks, i was a good boy and duly licked her to a delightful orgasm, having her come was the ultimate for my subservient needs, true reward. But to my utter surprise i was allowed to continue and licked and licked until i was allowed to place a finger in the Divine Mistress' pussy. i stroked and licked with all my might, my body heaving with passion until she came a second powerful and shuddering orgasm. She let me feel her body shudder and quiver with pleasure, which was so powerful and erotic i will never forget it.

i had succeeded in my duties and after a short rest was to be given a futher experience. She told me to wait for her in the bathroom which i duly did, and then told to lay in the bath naked. She stood over me and gave me my first golden shower which was wonderful, warm and very erotic. She then, unexpectedly, told me to wank i was very unsure as to whether Mistress would allow me to cum on

my first visit. Wanking in her piss and cum juices which were still flowing out of Her pussy i came for Her, lying beneath Her and always in Her control.

What really took me and made the experience was Her true eroticism, Her passion for pleasure, Her control over Her boy and the very fact that i was not just turned on but sent into a different world of pleasure (and pain) - not just an erection and need to cum, but a total body and mind experience that drove me to please Her and want to do so more and more. i have my homework to do and look forward to serving Her again.
