The Lady:

A very attractive young women say early twentys ! With a toned and slender body . Standing at about 5ft 8in tall with nice size t*ts .

The Story:

Very dissapointing because i read her previous reviews and was quite excited about the meeting. She was very sensitive from the night before so i had to be very gentle (in that case take a day off to recover and dont waste punters time and money) started off with FK which was just OK ! and then on to OWO which was good , with plenty of tongue movement and a good eye contact . Tried reverse oral but she was sore !! So then moved onto sex in one postion with her lying on her side and me coming in from the side , because she likes it like that (but i dont and that is more important) all too mechanical for me , thought i was not even going to come at one point !! But then i realised why it was her favorite she started moaning and playing with her clit as i F**ked her , Now that was good which inturn sent me into a org**m !!

She is good for an hour but that is it and all i can say that to others who written review , they are easily pleased because better are out there!! But worth a visit (just) We must all write reviews lads , so we can sort out the wheat from the chaff
