The Story:

sightseeing is very nearly as attractive as her photos on the website, turning me on immediately I clapped eyes on her. first 15 minutes spent trying to chat but her English is not good. Started kissing and caressing but no tongues. She suggested we went through to the bedroom which was romantically lit by candles. Enjoyed more kissing and caressing and I found her so attractive I was now throbbing! After I had undressed her she did the same to me but I had to ask her to start OWO. This was good but got much better as she got me nice and wet. I returned the compliment and was very pleased with the response. The noises she made and her dripping pussy were not faked! One with a cap and satisfying sex in several positions. I was enjoying taking things really slowly and building up to the finale.

Unfortunately, this is when things went wrong. I had previously asked her if CIM was okay and she seemed to agree. At the point of no return I told her I was coming and exploded in her mouth but she gagged, jumped to her feet and ran out to the bathroom. I was left with a punctuated orgasmic experience and a deep feeling of guilt because she had clearly been caught unaware. When she re-entered the room I said "Are you okay" and she replied "No, not really". I was very apologetic, but there had clearly been a major breakdown in communication which spoiled an, otherwise, very satisfying punt.
