Details of Service Provider:

Profile Name: Annabels, The Hidden Gem

Website: <http://www.annabelsmassage.co.uk>

The Premises:

The parlour had an entrance on the main high street, but at the time, there was no-one around. Still, it wasn't at all 'discreet' as in the website description

The Lady:

She was short, at 5'4, and had nice, natural breasts, a flat stomach, and a pretty face. She had shoulder length blonde hair. She had just moved over from Latvia, and her english was so poor that I couldn't really understand what she was saying half the time!

The Story:

This was my first time at Anabel's, and it was a huge disappointment. The place appears to have changed ownership recently, so none of the girls on the website are available any more. The receptionist was entirely uninterested in answering my questions about the services, and upon choosing the girl, she was also very emotionless and dull.

She started off with a nice massage, which was terribly boring. She then flipped me over, and gave me a handjob. She did it incredibly robotically, not responding to me at all, and in fact all she was doing was jerking it as fast as she could. Needless to say, I blew my load quite quickly, after which she wiped me off and juet left. All in all, I thought the services were awful. Never again!
