The Story:

I've been coming to Oasis (it's back to being Oasis now, after being Indulgence [sic] for a while) off and on for five or six years. It's by far the best small parlour I've ever been to, and often gives some of the major Manchester establishments a run for their money. The only slight gripe I have is that the entrance is slightly exposed, and if the nearby factory is changing shift when you come out you can emerge into load of workers.

Inside is very pleasant. Recently, they seem to have stopped using the small massage room, and all the action takes place in a large room with a pleasant bed and good mirroring, a shower room and TV.

Francesca was very pleasant and friendly. She's been a lapdancer in the States and clearly keeps herself in very good condition. Started with a nice massage and some chit chat, before turning over for some O (covered) followed by sex with her on top. We changed positions a few times, culminating in doggie style (great view in the mirrors!) before she suggested I came on her tits - popped the old lad out, condom off, and she wanked me until I came on her.

All in all very good. If I had a small moan is that I seemed to be seeing her at the end of quite a busy day, and she was quite tired - she was friendly and polite and careful not to hurry me, but the girl was clearly looking forward to home time!

As usual with Oasis, a top quality punt.
