The Premises:

Good neighborhood, but the flat was below average. A single very small room for the girl and not the best bathroom.

The Lady:

Very pretty. Nice body. Not the perkier breast, but still nice. The photos match, but I'd say she actually looks older on the photos on the web site, than in real life. This proved to be a bad thing, surprisingly.

The Story:

I have no problem with girls that doesn't understand English all that well, or that have very little experience and how to please a guy. However, when they are combined, it is not a very good punt. This was such a case.

She only kissed lightly and did try to do OWO but did some strange "banging" of the dick on her tongue - sorry, I can't explain it but it was weird. No fingering or licking of her pussy.

She is simply in the wrong profession. I liked her as a person and she was sweet (not rude in any way), but she is too unexperienced to perform any descent sex act and didn't understand English good enough to take directions.
