The Premises:

Walk-up on a busy street, interior door but not that discreet if you're local I suppose. Don't know the area that well, but parking didn't feel that safe. Place was basic, but clean enough. Comfortable enough lounge, friendly enough receptionist but wasn't offered shower. Room with mirror, double bed, large bath.

The Lady:

Jasmin has African looks, although she's apparently of African/Italian descent hence the accent I couldn't place. Medium to small in height, what we used to call "pleasingly plump", ample breasts with very dark nipples and a nice bum. Short hair, pretty face, just my type. Seemed about mid-twenties.

The Story:

It was Easter Monday and not Jasmin's usual day, apparently Ladybird's usually has three girls, none had turned up and Jasmin was something of an emergency worker. The receptionist apologised profusely for this, but it was my gain as Jasmin was an excellent punt, despite my being shattered after a long drive. Was a little irritated by the "£10 for entry and £35 in the room" thing, just tell me the price is my attitude, and a bit of a wait before Jasmin joined me. But once she did, we were off to the races. Started as usual with a back-rub. Was asked if I wanted a firm or soft massage, always a nice touch, opted for firm and she handled my stiff shoulders and neck very nicely.

All the while we had a nice friendly chat, mostly about what Jasmin would do if she ruled the world, sellers of ciggies to kids watch out. When she turned me over, Jasmin winced and complained of a sore neck, so I offered her a back-rub which she accepted. Was very complimentary (genuinely I think) of my efforts, and we chatted some more as this just naturally evolved into a protracted session of "fooling around".

This was really fun, seeing how hard I could make her nipples and so forth; lovely tasting pussy, when I surfaced she told me I "was really good at that" and when I told her she was lying and

flattering me we had a giggly discussion of who lied more, women to men or men to women, all while I fondled away some more, it was that sort of punt. A few lip-kisses along the way, not full snogging (I don't expect this from working girls, nor do I think they should), but a friendly peck is always nice. By now I was raring to go, and Jasmin was astonished when I turned down the offer of oral (am I alone in sometimes not being in the mood for this?

), but popped on the hat with a few nibbles anyway, force of habit I suppose. After some more fondling we settled down for a vigorous mish which was excellent, I don't like a lot of fake moaning but I certainly enjoyed the growl in my ear of "go for it, tiger" at a critical moment. No rush afterward either as we cleaned up and chatted some more, before Jasmin saw me to the door and sent me off with a kiss and a smile on my face. Haven't had many punts, but this was the best, a truly nice and friendly girl. I have no idea of how "skillful" Jasmin is in more than the basics, but treat her nicely and you'll have a damned good time, and you couldn't ask for more at the price.
