mine....

The Lady:

pretty hefty , huge cans but still all quite firm, clean shaven (like a lot of big tit blondes) a bit surly

The Story:

one of the best deepthroaters ever.....really got on it. Also was happy to perform a decent rim job and i mean really getting in there and chowing like a champ. Shot a good 5 days throat yoghurt down there whilst balls deep. No a level which was a bit disappointing as it looked like a sweet little polo mint
