The Story:

Happened to be in the area, feeling very horny and dropped in on the off-chance that debbie would play around with my cock and balls: I was in luck, she was free and she would! (ha ha).

We agreed a scenario along the lines of she was my secretary, late into work and had to make it up to me by wanking me off - I didn't have time for a full-on shag.

I should have known better - after 25 minutes of having my cock and balls licked and sucked and my prostate felt and god knows what else and having her huge tits plastered all over my face and my hands tied, I was begging her to fuck my balls off. Which she did. Of course. Beware - you put yourself into this woman's hands at your peril - avoid unless you can take a really good fucking.
