The Premises:

Flat above a shop, access via rear alley, safe and private. Interior very smart. The room was comfortable and clean with porn playing on tv in corner and a few mirrors.

The entrance door to the flat was double locked, and the minder kept the key. Definitely a fire hazard and a maid would be preferable.

The Lady:

Very attractive, but not at her best today. She took the money and disappeared. Picture of her is on website.

The Story:

I didn't get started. She left me to get "comfortable" and I was on the bed naked when the minder came in, full of apologies, gave me back my money (?90), and said Keeley was too unwell to work.

These things happen, and it's better that she didn't start rather than quitting early on or going through the motions. Good premises but I would only return for a different girl and preferably without the muscle. The door locks are dangerous (and illegal!).
