The Premises:

Single-bedroom apartment on a main road with heavy traffic but few pedestrians. The bedroom was nice, large and spotlessly clean. Annie mentioned that she was moving apartments at the end of the month however, I believe she is now based in Marylebone.

The Lady:

The photos are accurate - she is a very cute lady with a pixieish face, peach-like behind and rather beautiful breasts (enhanced). The only thing the pics don't quite capture is her friendly-but-naughty demeanour...

The Story:

I was warmly welcomed into the apartment by Annie, who looked most arousing dressed in the kinky black vinly lingerie and boots shown on the site. She offered me a beer and had a little chat about what I would like. I'd come along to try being dominated for the first time, and she was a bit doubtful about dominating someone she had not been with before... but after talking about what my limits would be, she began...

She stripped me off then made me stand in the middle of the floor, tied my hands and then got a blindfold and a loooong whip. What had I let myself in for? At least she had lots of room to swing in such a large room... This lady really knows her work..., she proceeded to walk around me, caressing here, fondling there, a kiss - or a sudden strike with the whip finely judged to give stimulating pain but not agony. She teased, she punished, she grabbed me by my throat and spat in my face before taking me in her mouth for a minute or so - before bringing the whip into play again, and telling me off for not thanking her for each lash. You know, I think she really does enjoy playing this role.

Then the blindfold was removed and I was ordered to lick her boots, which I did - though evidently not well enough, for she didn't stop with the whip. Though I was finally allowed to lick my way up her legs and taste her damp little pussy, which was heaven.

Time for the next course: I was ordered to get on the bed on all fours, and was confronted by the

substantial dildo Annie had strapped to her crotch - which I was made to tongue. That was only a preliminary, of course, to the main event: her attempting to take my arse. We both tried, but that dong was really beyond my capacity. A toy I had brought with me (a buttplug that both inflates and vibrates) proved adequate for her purposes, and she took some girlish delight in exploring the potential of the device... to my pleasure and occasional discomfort!

But all of this was just an entree for the main course, as Mistress Annie finally rolled some armour onto my member and told me to mount her missionary-style, which I did with great enthusiasm and vigour. A delightful romp followed, with Annie shedding her outfit and shuifting positions a couple of times in the process. Nothing quite like being in bed with a girl who is both sweet and naughty enough to enjoy being fucked across the bed. (Anal was mooted at one point by myself, but she declined - I am, er, large in cross-section, which certainly has its disadvantages as well advantages.)

Alas, when conjoined with a squirming little cutie a man can only last so long, and I spent into the condom. Ah, perhaps the longest and most intense orgasm I have ever had.

For afters was a sensuous bath, a conversation of a private nature, and a very nice massage. She proved expert at finding and relieving all the spots of tension in my body, not just the one I had come to see her about. And a hug as we said goodbye.

She's a very special lady... a sweet girlfriend, a very raunchy tart in the pillows, and a strict but playful dominatrix who really enjoys her work, if that's to your taste. Annie is a gem.
