The Story:

She was late but only 15 mins so only a small collapse.

However once seeing her my spirits soared. Time to chat and get to know her a little. I was already showered so onto the bed and into a clinch. Messeda round for 5 mins and then got down to some serious oral and all the usual stuff including 69. Once we got down to shagging she started on top and worked me quite hard so switched around so I was on top and worked even harder till I came in that nice tight pussy. All very nice with a young lady who knows what to do. Great time.
