The Premises:

As has been posted before, the place is very nice. For some reason, every time I go there (or book over the phone), the receptionist asks my name and then gets it confused with another name with the same first letter, which I find kind of funny. However, she is friendly and polite.

The Lady:

I suspect that she is a bit older than stated on the webpage (26). Her pictures are complementary to her. She is not quite as thin and has some scarring. However, her tits are very nice (one of the things that attracted me to her pictures). Overall, I had no real complaints.

The Story:

Recently I had a change to attend a couple of parties with Caribbean girls around the same age that the website has listed for Chanti. This gave me a bit of a hunger for Caribbean girls. Based on her accent, Chanti must have come here at a young age (when I mentioned this after the session, she said she could do a Caribbean accent if I wanted).

To start with, she seemed a bit bored. I did like the way she positioned herself at the start of the BJ so my hands had nice access. She later moved but did not mind giving a nice long BJ. It was nice. Then she got on top and really knew how to move to give my organ a stimulating experience. We then finished off with missionary. She was a good actress during the sex and you could almost forget her disinterest in the beginning.

I ticked off that I would go back because given what I paid, it is better service than I would have gotten in Canada. Moreover, it is not her fault that recent events had given me a hunger for a real Caribbean (e.g. not English Caribbean) girl around the age stated on the webpage. Thus, I really have no complaints about her service. However, in my remaining time here, I will likely just try to get a couple of sessions with Melanie instead as I really liked my sessions with her (see my review of my first session with Melanie). Moreover, it is no problem to get sessions with actual Caribbean girls in Toronto. Cute Blond girls with strong English accents for less than \$100 are a different matter.
