The Story:

First visit to see Bonnie, so no idea what to expect really. All started really well, Offered a drink and then proceeded upstairs. Shower offered and accepted.

Bonnie is a lovely kisser and very tactile and sexy, everything started just fine, clothes gradually discarded and on for some "treatment"

After some initial problems (absolutely mine - an unexpected and I hope not to be repeated, hydraulics issue) Bonnie did pretty much all she could to get the hydraulic pump going..... it was eventually resolved with the now famous massage and in particular the body to body variety.

I have to say that particular speciality is well worth the visit all on its own. and it has to be experienced -- describing it would be a waste of time.

So we got there in the end .and very nice it all was too

Is Bonnie to be recommended :- Absolutely ! She is first rate at what she does and engages fully in the whole event .. Nothing passive about Bonnie at all !

She is experienced in all aspects and the B2B is an event all on its own. It is Bonnies speciality and only she can truly get away with it a) because she knows what she is doing and b) she's small enough and light enough to actually do what she does ... (Attempt this with a BBW and you'd be in all sorts of probs !! :-). I'm sure BBW have other "tricks " mind!!)

A small personal concern and it might work fantastically for others.....Bonnie has a box of tricks which she usesfor me they were perhaps overused and perhaps used too early.

For example

I didn't respond well to an attempt to use a blindfold in the earlier stages of our meet, If used later it might have worked but its early and unexpected use was a turn off not on.

Before having sesnses disabled you need to be in a position of trust and rapport I hadn't had time to get there.

Plus Each of us takes in data (and are then stimulated by) via our senses. But we are all different in which senses we favour... so access each sense in different proportions (touch, taste, smell, hearing, sight, there are more but i won't bore you with them here).

I know that I am a predominantly Visual person ..so to have that sense temporarily disabled means that I was missing out on much needed stimulation ... which perhaps kept the hydraulics switch disabled a bit longer than it should.

might have worked for someone else .. not for me !

With that in mind it was an OK appointment but fell short of exepectations ...Maybe I'd set them too high !!

Would I see Bonnnie again?? I hate the Yes/ No bit on this form as its not Black and white in my opinion.....My answer right now , is possibly and possibly not ... time will tell.
