The Lady:

English, slim, reportedly 40 something, very short bottle blonde hair, medium to large enhanced breasts, stylishly dressed, cropped pubic bush shaped like a coffin.

The Story:

Cheshire Companions is the agency I use the most. They are professional in their dealings and have never let me down. Their recent price reduction in response to the credit crunch is an example is to why I think they are the best.

Carrie arrived a few minutes early. She possesses excellent interpersonal skills and showered me with compliments from the outset which she made seem sincere. She certainly gave the impression that she thought I was very attractive and valued being with me. While this is most probably part of the act, it was much appreciated.

After about 10 minutes of having my ego massaged, I thought I would initiate the action with DFK. She responded. The rest of the session was the classic GFE with lots of kissing, owo punctuated by chatter in between. At no point was I rushed but I became aware that the end of the hour was rapidly approaching and asked to be finished by hand - she doesn't do cim/cof. The climax was long and powerful.

More chat while she dressed during which she kept up the pretence of liking me concluding by saying that she really hopes to see me again.

A very pleasant way to spend an hour. Especially recommended for those who relish easy company as much as the more intimate side of things.
