The Story:

Strange punt this, when I say Selina on a previous visit I thought that I wanted to see her one day, so made this appointment. When she came in the room asked me what I wanted so said, as usual, the full GFE, including kissing and touching and reverse oral. It was at this point she said that may be a bit of a problem because she was on her period. Now I am sure I have seen other girls on their periods and never noticed it so thought why not?

We got on the bed and started kissing which wasn't great as ever kiss was following with a ?mmmwwhhhh? which only seemed to emphasise the fake nature of the kiss. Soldiering on I decided to have a play down below and thought it was going well as she seemed to be getting wet, pulled out my fingers and they turned out to be covered in blood. At this point I decided to forego RO but carried on playing.

After a while, I opted for oral so on with cover and a very decent spell of oral in deed, decided then to push on with sex and she got on top and rode for a while, a minute or so in to this she asked about how long it would take me to come.

Decided to then try a few more positions but looking down at the condom this was covered in blood, so after trying and failing to have doggy and missionary, mainly because I was getting no help from Selina. I decided to finish with covered oral, which was good.

All in all I think Selina is a nice enough girl but a bit too young for me and we didn't hit it off, also the blood punt me off, the odd drop would have been OK but at times it was like reservoir dogs!! I think if you hit it off with this girl it could be a good punt but I won't return to see her.
