The Story:

As her second-ever client, this was my third visit in about 5 days. Sonya asked me to write a report so I had to oblige. I have mixed feelings about writing this, the simple reason because the sex that we shared on Sunday lunchtime (my second visit, also 1.5 hrs) was absolutely amazing - despite her limited English (I know quite a bit of 'eastern european' so communication wasn't compromised) we just got on and, new to this vocation she gave just far too much of herself and we collapsed in a sweaty sated heap twice in a way that you really only do with a proper girlfriend that you're really into and you've known a while. I was so smitten that I seriously debated sponsoring her through university and 'keeping her for myself' as one sees quoted from time to time! I probably wont go back again but only because I'm unlikely to get a repeat of Sunday and I think I'd prefer to keep that memory special (and I've been round the block a bit and am not renowned for my sentimentality...). Anyway, Sonya is very responsive, very accommodating and absolutely lovely - go and see her, treat her really nicely, be gentle in your attentions to her pussy and it will reward you with the wettest fingers you could imagine, enjoy the privilege of fucking such a lovely young thing that east-west economic disparity affords and remind yourself of what it was like to be 22! (In my case, with the advantage of the self-control of a 40 year old ;-)) Brilliant.
