Czech girl, as in pictures, but would say late 20's/early 30s.

The Story:

Ultra professional attitude. No DFK, no touching pussy, even backed away when i tried to touch her breasts. Had a small pharmacy of products such as antiseptic foam which she sprayed over me even though i had just been for a shower! I asked her if I should spray some on her as well which she pretended not to hear.

Rough BBBJ.

The first round of sex was fine, her in doggie with her panties near her ankles. Even allowed me to use a dildo on her initially to arouse her.

When it came to the second round, this is when the pain began. She has a strange way of putting on the rubber, instead of rolling it on, she stretches it way out and snaps it over. Unfortunately for me, her fingers slipped and the rubber snapped rather painfully on my cock. I was in quite a bit of pain to which all she said was that i was a man and should be able to take it! To compound it, she grabbed my dick in order to help me enter her and she managed to hit some nerve in my groin causing excruciating pain! Again, no apology, she just brushed it off.

After that, I could barely become erect again. She finished me off with a handjob.

Possibly the worst punt I have ever had.

Avoid unless you fancy some s&m.
