The Lady:

Phoenix Marie is one of my fav porn stars in the states and in person, she was just as amazing. Tall and voluptuous - plenty of curves - not one if you prefer tight stick figures

The Story:

Meeting Phoenix in and of itself was pretty amazing - she's a really down to earth california girl and very easy to talk to - I had to eventually drag myself out of talking the whole time to get down to business. On that score - she is phenominal. Although she regularly fucks the studs of the US porn biz, she really made me feel relaxed. She claimns to not do anal except professionally or with a boyfriend so that was off the cards and very disappointing as it is her big speciality, however, the rest of the punt was still mindblowing - starting with THE best bbj i've ever had leading to mish, then doggy. Finished by having her stand over the bed while pounding her from behind (a personal fav)and then spunking on her face. She has a boyfriend in the biz who was visiting later that night, who she claims was ok with all this, but i recall him being a fairly largish guys so despite my desire to linger, I made my way. Not sure if she still provides anymore but worth checking photogirls every now and again to see if she'll come back. was the punt of a lifetime
