The Premises:

Pleasant and safe and discrete. Different receptionist today and similarly pleasant, relaxed, low key and personable as other one.

The Lady:

Lolita is a full-bodied Indian woman who looks younger and prettier than her pics may suggest. Lovely long black hair, refined, attractive, intelligent features, full seductive breasts and really rather nice.

The Story:

Was surprised when Lolita walked in the room as she was younger than expected but still mature (site says 30; probably more but then looks younger than she probably is).

She seemed very real and so I was not surprised she is quite new to the work but she seemed relaxed and friendly.

We got on well with ice broken by the ff-topic chat early chat.

We became more intimate as Lolita (ok silly name for this lady but no matter) relaxed in my company and there was no awkwardness about what was allowed or not.

I suppose we did not do much in the end but lovely cuddle and fondling, light kissing over the body and eventually straight to sex.

Lolita again feels younger than expected, very soft skin and also very pleasant sensations.

Different positions and hj to finish.

I really enjoyed this meeting and wouldn't hesitate to see Lolita again.

I am getting to be rather taken by Sirens, which has a strangely but perhaps wisely low profile.
