The Premises:

my hotel, quite OK (a serviced appartment, actually)

The Lady:

Amber is beautiful in a calm, understated, classy way.

She came dressed for (my imagination on a somber April day) a quiet night with a good wine in front of the fireplace. Under her nice (easy to remove) dress, she wore a nice set of (silk?) lingerie as well.

Her leg-muscles betray excercise and her arms and shoulders show the strength of someone who could do a genuine massage.

And as I should have guessed from her good and practical taste in clothing, Amber is a clever personality. Once you get to know her, slowly, like a good wine, she unfolds as a clever, skillful girl with a head firmly on her shoulders.

This girl will do Allright.

The Story:

Unfortunately, my serviced-appartment didnt have a fireplace, and I had no wine, so we had to settle for a softdrink and some peanuts on the settee.

After a brief chat on the couch it became clear that Amber was a slow but very capable seductress, a fervent kisser too. She was quite good at reading my mind (and my body, I guess). We moved on to the comfortably large bed with lots more of slow, intense kissing and cuddling.

Amber is not afraid to be treated herself either. Lovemaking with her is best done Slowly, softly, exploring. Amber can be very Intense, almost tantric in her behaviour. But as they say: quiet waters run deep. She has the technique of an intelligent woman who knows how to read and treat her man. And once Amber is warmed up herself, she may have a few interesting suggestions too. Positions where she can use her leg-muscles, or something you can do on a desk, for example.

When the originally booked hour was up she didnt seem to notice at all. And when my playlist told me that we were well into overtime I offered to extend the booking. Not something I do often. But

Amber had not even begun to show her massage-skills, and I decided that was worth a try this time. I have not regretted that. If massages are your thing, be ready to be moulded. Most massages I had were an excuse for passing time, but not so with Amber: She knows where to find your muscles and with interesting results too. When I turned back to face her, we were both ready for more action which duly followed.

Amber did not betray my confidence, and made me see several more HighLights before we ended up exhausted in eachothers arms.
I'll be Back for more.
