The Premises:

Near to Borough Tube station, it is a treasure trove of art, photographs, objets trouv?s, books, CDs and DVDs which reflects her personality and interests as shown both in her website and her blog. And the bed in the corner, reminiscent of a scene from a Moorish harem, is perfect for a sensual liaison.

The Lady:

Black hair, medium height, the smoothest, whitest skin that I have come across and a younger appearance than the age given by her birth certificate. Her 'half-sleeve' tattoos, when finished, will only enhance the colour of her skin. She will tell you that she is currently not at her favourite weight and has a few pounds too many; but, don't believe her, these only seem to make her curves more alluring.

The Story:

After meeting at her place, we went out for dinner. On our return, Dolly lit an assortment of candles for the right atmosphere and we retired to the bed for a glass of wine and a chat; her conversation on varied topics is always interesting. Now, she tells me I am a gentleman, so I won't give a blow a blow by account, but the fun that followed was of the highest order and was everything any full-blooded man could wish for? and then some. Afterwards, we fell asleep in each other's arms so that we could regain our energies. On waking, there was further fun followed by some sustenance before I left with the most inane grin that I've had since I last saw her.

To sum up, Dollymopp may not be to everyone's taste, but if you're interested in a complete lover experience, then she may be for you.
