The Premises:

Nice flat in a secure location a few minutes from Manchester Piccadilly train station. Good parking - no problems whatsoever.

The Lady:

She looks just like in her photographs. Very petit spanish girl with long dark hair and a great body.

The Story:

Becca is a very attractive girl who was interesting to talk to and had a nice if a little impersonal way with words. However, she does not offer almost any of the services advertised on Northern Babes and is very clinical in her approach to her job. All oral was covered despite OWO being advertised and you can only cum in the condom. Obviously she is concerned for her health but she offers more the kind of service you would expect from a street walker than an escort. If a very impersonal service with a beautiful girl is what you are looking for then she's the one for you. However, if you want more of an upmarket GFE then stay away.

I have booked through Northern Babes before and they were very good so this one obviously slipped through their vetting system or they are now have enough feedback on ** to no longer care. As of 2010 do your research before booking with them.
