The Story:

Started with a shower. Dried off and asked her to take off knickers and bra and put on her glass high heels. She did and sat on the bed and started to suck me (covered). This was actually great - lots of tip licking and playful eye contact. I was very aroused and asked her to suck my balls - 'No'. Was the answer - that's fine too - shame, but up to her. Down on to the bed for some fucking which started off brilliantly - she has great skin and unbeatable legs and arse. Position change to doggy, me standing up and her on all fours on the bed, naked apart from those glass high heels. I felt like I was in a 'Private' porn movie and relishing watching my hard cock bob in and out of that magnificent rear. After 20 mins of the session I wasn't far off unloading either. Here's where it all went wrong - at this point she scuttles across the bed away from me and my raging meat, hands on hips standing in the middle of the room and has a massive go at me for not coming yet! I couldn't believe it! Needless to say this ruined the moment completely, and I just about managed to finish myself off, although I could by now hardly be bothered. Great body but rotten attitude. Plenty of better action out there at the moment.
