The Story:

It would be rude for me to say what we did. However, what i can say is if every woman in the world was like Caitlin, there would be no need for escorts for us men. A charming lady, with a sense of humour, knows how to please, and gives a genuine sense of enjoyment in all she does. She is open minded, a conversationalist, and an expert lover and true GFE.If days had more than 24 hours in them, the time would still fly by when your with her. There are not enough superlatives to describe this gem, and now what must be,the eighth wonder of the world. If i ever visit Manchester again, she is number one on my visit list.
