The Premises:

Small flat. Clean. Room was extremely small and completely bare apart from a single bed.

The Lady:

She has put on a bit of weight since the pictures on her website were taken. Pleasantly plump.

The Story:

A very unsatisfactory punt. It began well enough, but she wouldn't allow her nipples to be touched at all. She wouldn't entertain reverse oral either (which I love and had specifically mentioned in the booking conversation). She was very keen for me to finger her clitoris to orgasm, This would have been fine too, but she was not keen on intercourse either and ended up giving me a hand job. I could have saved myself the time and expense and done that for myself. At the start of the session I had specifically mentioned wanting intercourse and this is the first punt I've had where the WG so completely avoided the kind of sexual contact that is the whole point of a punt. I left feeling thoroughly fed up having wasted my time and money.
