The Premises:

Discreet one bedroom first floor flat with its own parking area just off a fairly busy road. Take care to ring the correct bell on arrival. It is the top one. It has a pleasant bright lounge through which there is access to the bedroom and well equipped bathroom. An ideal base for a working girl, a real little love nest.

The Lady:

Attractive slender brunette with shoulder length hair. Height about 5'6", size 8. 32A/B. Intelligent and articulate with a sexy Welsh lilt. Since I have last visited her she has put on a bit of weight, particularly to her sensitive suckable breasts, and her bum. Now that she is in her early thirties Nadia has really blossomed in every way.

The Story:

Back in the days that I worked in Bristol I visited Nadia frequently, but for the past 5 years, because I live over 150 miles away, I only get to see her 2 or 3 times a year. Each time that I do, I am reminded of how special she is. I enjoy the female orgasm nearly as much as my own, and Nadia is multi-orgasmic. There have been occasions on which she has cum 3 times as a consequence of my attentions, though on this occasion it was just the twice. The first was following a session of intense pussy eating. The second followed a long and deeply satisfying fuck in the missionary position. Our timing was perfect this time. Absence making the heart grow fonder definitely affected proceedings. Nadia is an amazingly affectionate woman, which accounts for her enduring popularity. Needless to say we spent a lot of time kissing and cuddling prior to the conclusion that I have described.

Because we know each other very well after our long association we have another shared interest. It relates well to active procreation, but to its consequences rather than the pleasure of it. We are both seriously in to family history, normally regarded as very geeky. I have been at it for longer than Nadia, and have therefore been able to advise her of fresh sources of information that she can access. We spent an extra hour or so beyond the time we spent having sex on this topic. Nadia is good company under any circumstances. Her only bad habit is smoking, but she only had to light up once during the time we spent together, and that was well after we had been snogging.
