The Premises:

Nice enough flat inside, was on a housing estate, and when I left there were large gangs of youths hanging around the general area - definately didn't feel at all safe afterwards

The Lady:

Looked like her photos on the website + 6 or 7 years of moderately hard living plus weren't natural like advertised - in fact she informed me that they were too senstive to be sucked! Still attractive, but felt a little cheated by the photos

The Story:

To be bluntly honest it wasn't the greatest FPS I've ever experienced - whilst she was on top it was pretty clear from the expression on her face it was just a job to her, confessing to a previous crack habit wasn't the greatest move on her part either. Not a very convincing actress either. However that said the company went to a great effort to satisfy me - she wasn't meant to be working that day, yet they organised it so that I could see her, so kudos to the establishment, I just think they were let down by the girl
