The Premises:

A nice modern flat with security entrance, if you dont know the area you might find problems parking.

The Lady:

Average looking girl in her early/mid 20s, long dark hair. Not fat by any means but could do with losing a few pounds. A natural untrimmed bush down below.

The Story:

She described herself as an indian princess but the treatment I got was definately not royal. Indian girls are not my normal cup of tea but I thought I would do something different this time.

She answered the door in a tshirt and panties and my initial reaction was to say thanks but no thanks. But thought what the hell, it might just be because I am going against my normal type.

She was initially quite chatty and then she got paid. Then it was very soulless and robotic. It was dont do that, thats too hard, no fingers inside me, dont put your tongue inside me, very little kissing, poor oral technique, unresponsive and controlling during sex.

I felt like I was almost intruding on her time and almost as soon as I felt like coming I didnt hold back so I could leave.

As soon as it was finished she was back to being chatty and friendly. Too flipping late. This was intended to be a Xmas present to myself, if it had been M & S I would have been back asking for a refund.
