The Story:

Had to submit after seeing 'laptops' accurate review of this girl. Yes, I admit I was led by the 'old boy', but this comes close to one of my all time worst punts. Turned up on time, called Kiera and left message. Finally got round to calling me 15 minutes late. Don't you want to kick yourself when you know you should have driven away?

Finally went along, laptops description totally accurate, a real mess of a flat, I think even the front door wouldn't close properly. Kiera made me feel quite nervous as she couldn't seem to sit down and was a bundle of energy, couldn't seem to stop talking and jumping around the room! Man I should have walked away, but....

Finally got down to things, but was so unexcited, and also disgusted with myself, that actually left before I had completed everything on my behalf. Total waste of time and money, put down to experience I think....

I would recommend you really try and avoid this girl. On the 'other site' beginning with an 'A' she was Kiera but is now Bambi. She has quite a few positive comments but fail to see how these are really genuine. I hate to say it but I wonder if she is funding some sort of habit....would explain the erratic behaviour at least. This is exactly the sort of situation sites like this should be warning guys about.

Guys out there - AVOID this disaster - your money is well spent elsewhere. And thanks to 'laptops' for pointing this out!
