### The Premises:

Safe outdoor location

### The Lady:

Pictures she sends are good but when she turns up, no. 5.1 long hair which was dirty, wearing jeans, smelt terrible

### The Story:

Gents advertises on \*\*. Should have left as soon as I saw her but thought to at least test the water so to speak. Do leave this person well alone, when the knickers came down there was blood all over them so I made a hasty retreat  
Must say in all my years of punting this is the worst ever
